

## MEMORANDUM

CONTRACTORS STATE LICENSE BOARD STATE OF CALIFORNIA

---

**Date:** June 17, 2002

**To:** Interested Parties

**Subject:** Final approval of amendments to California Code of Regulations section 832.09 Drywall Contractor

The rule making file to amend California Code of Regulations, Section 832.09, defining the scope of work for a C-9 Drywall Contractor was approved by the Office of Administrative Law on May 8, 2002, and filed with the Secretary of State on that date. The amended language became **effective June 7, 2002** (30 days after filing).

Section 832.09 Drywall Contractor was amended to read:

A drywall contractor lays out and installs gypsum wall board and gypsum wall board assemblies including nonstructural metal framing members, and performs the taping and texturing operations including the application of compounds that adhere to wall board to produce a continuous smooth or textured surface.

The purpose of amending the language was to clarify, in writing, the work actually being performed by drywall contractors. This language **does not add or take away** any work previously allowed under section 832.09.

Public inquiries should be directed to the Information Center at (916) 255-3900 or [licensing@dca.cslb.ca.gov](mailto:licensing@dca.cslb.ca.gov).
